Dear Ms. Graser Ropski:

This letter is to confirm receipt of the General Notice Of Potential Liability And Request For Information, dated December 16, 1994, and to serve as our response as requested within seven (7) days of receipt of the above cited notice.

The Barry-Wehmiller Company has initiated an investigation to determine the facts surrounding our company's involvement with the Sauget Area 2, Site Q landfill. This investigation will include such things as locating documentation as to quantities and types of waste that could have been sent to this site.

As we are in the early stages of our investigation little information is known about our involvement with this site. Additional information will be provided as it becomes available.

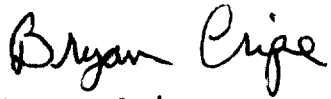

Any future contact regarding this matter may be directed to me as follows:
